The main calendar template, a large octagonal shape divided into 12 sections, each representing a month. The months are: ENERO (January), FEBRERO (February), MARZO (March), ABRIL (April), MAYO (May), JUNIO (June), JULIO (July), AGOSTO (August), SEPTIEMBRE (September), OCTUBRE (October), NOVIEMBRE (November), and DICIEMBRE (December). Each month contains a calendar grid with days of the week and dates. The template includes fold lines and instructions: "Plegado valle" (fold inward) and "Plegado montaña" (fold outward). A small diagram shows how to fold the template into a cube-like shape. The template also features a circular color key and a small octagonal diagram.
